CHAPTER 01

Night Monarch

The Night Monarch is a standalone class inspired by Soma Cruz's power to claim the souls of defeated monsters. Warlock supplies its chassis; Bloodline Brands, Magatama and the Succubus supply its own repertoire. The Monarch hunts, absorbs and chooses which stolen power to express.

Starting Age

Intuitive.

Class Skills

The night monarch's class skills are Acrobatics (Dex), Bluff (Cha), Climb (Str), Craft (Int), Diplomacy (Cha), Intimidate (Cha), Perception (Wis), Perform (Cha), Profession (Wis), Sense Motive (Wis), Spellcraft (Int), Use Magic Device (Cha)

Skill Ranks Per Level

6 + Int modifier.(Virtuoso progression)

Proficiencies

Night monarchs are proficient with simple weapons, as well as light armor and bucklers. In addition, if this is this character's first level in any class, they may select a martial tradition of their choice.

Casting

A night monarch may combine spheres and talents to create magical effects. A Night Monarch is considered a Mid-Caster. She uses Charisma as her casting ability modifier. (Note: all casters gain 2 bonus talents and may select a casting tradition the first time they gain the casting class feature.)

Spell Pool

A night monarch gains a small reservoir of energy she can call on to create truly wondrous effects, called a spell pool. This pool contains a number of spell points equal to her level + her casting ability modifier (minimum: 1). This pool replenishes once per day after roughly 8 hours of rest.

Blended Training

A night monarch gains a combat or magic talent every time she gains a class level, according to Table: night monarch. Night monarchs use their casting ability modifier as their practitioner modifier and operative modifier.

Soul Arts

night monarch learns how to harvest and control souls of others gaining soul sphere as bonus feat in first level and uses her hit dice as caster level for soul talents.

Magatama(Su)

At 2nd level, a night monarch may customize up to three sets of gems in a process that takes 8 hours of meditation, drilling, and practice each, tweaks to suit her personal fighting style. Each set may consist of: single gem. The night monarch may choose to customize a new magatama by spending 8 hours, choosing which existing customizations to lose. The customization process allows the night monarch to train in additional talents unique to each customized magatama. At first level, each customized weapon grants a single sphere or talent. A customized weapon must possess a base sphere before additional talents of that sphere may be added unless the Night Monarch possesses that sphere, such as through the bonus talents gained from possessing the blended training class feature, from the Extra Combat Talent feat, or levels in another class. the Night Monarch may not use talents gained from a customized magatama to qualify for feats or to meet other prerequisites unless otherwise noted. Customization talents may be changed with the same action required to customize a new weapon. Spheres and talents that grant skill retraining never grant it when gained via a customized magatama.

The night monarch may only benefit from the talents granted by one customized magatama at a time. The magatama she is currently gaining talents from is the active magatama. A customized magatama may be activated as swift action.

Infernal Arts

As night monarchs power grow she learns special techniques know as infernal arts to further her dark mastery. At 1st level and every 2 levels after that night monarch learns one infernal art from following list unless its referred infernal arts only be taken once.

Bloodline Brands

night monarch learns how to absorb souls of his foes along with their blood, he gains absorbed creatures supernatural abilities. Night monarch can learn bloodline crests equal to bloodline crest column. Additionally night monarch can store her succubus companion in bloodline crest. Changing active bloodline crest costs full round action.

Resonance (Su)

The Night Monarch may spend 1 spell point as a swift action to empower her active Succubus companion's supernatural abilities, granting a +2 bonus on attack rolls and damage rolls made with those abilities for 1 round.

Cross Training (Ex)

Through rigorous study or field practice, you have acquired the fundamental ability of another class, though not their full expertise. You may select one class other than your own to cross-train with. You gain one 1st-level class feature of your choice from the chosen class. However, you do not gain the chosen class's base attack bonus progression, saving throw improvements, or spellcasting progression. Instead, you retain the base attack bonus, saving throws, and spellcasting of your original class. You may only cross-train with one class at a time, and once selected, this class cannot be changed. For example, a wizard cross-training as a fighter may choose to gain either the weapon and armor

Extra Power Known

Learn one additional psionic power of any level you can manifest. May be taken multiple times.

Bonus Power Points

Gain 2 additional PP. May be taken multiple times.

Tentacle Lash

When you expend martial focus, you may make a tentacle melee attack as a free action (1d4 + Cha modifier, counts as magic). At 10th level, this attack may grapple as if using the Grab special ability.

Mind Blast

As a standard action, expend martial focus to unleash a cone of stunning psychic force (15 ft. + 5 ft/5 HD). Enemies must succeed on a Will save (DC 10 + ½ HD + Cha) or be stunned for 1 round.

Cerebral Siphon

Whenever you reduce a creature to 0 HP with a psionic power, you regain 1d6 PP. This increases to 2d6 at 10th level.

Psychic Domination

When you expend martial focus, add a compulsion rider to a mind-affecting power: on a failed save, the target is *dazed* for 1 round in addition to the normal effect.

Memory Feast

After slaying a foe with a psionic power or tentacle lash, expend martial focus to immediately regain one expended maneuver or power slot of up to 3rd level.

Illithid Resilience

Gain a +2 bonus on Will saves vs. mind-affecting effects. At 12th level, you become immune to charm and dominate effects.

Subconscious Echo

When you expend martial focus, gain concealment (20%) until the start of your next turn.

Dominant Gaze

As a move action, expend martial focus to force a creature within 30 ft to make a Will save (DC 10 + ½ HD + Cha) or be *shaken* for 1 round. This is a mind-affecting gaze attack.

Synaptic Overload

When you manifest a damaging power, expend martial focus to add +1d6 force damage/5 HD.

Devour Thoughts

On a successful tentacle lash grapple, you may expend martial focus to deal 1d4 Int damage. At 12th level this becomes 1d6.

Mental Bastion

Gain a +2 bonus to AC and Reflex saves while psionically manifesting. This bonus lasts until the start of your next turn whenever you expend martial focus.

Thrall Echo

When you dominate or compel a creature with a power, expend martial focus to cause them to echo your actions (they mimic your last move or standard action to the best of their ability).

Ego Flay

When you expend martial focus on a damaging power, you may also impose a -2 penalty on the target's Will saves until the end of your next turn.

Mind Hunger

Whenever you expend martial focus, you gain temporary hit points equal to your Charisma modifier (minimum 1). These last until the start of your next turn.

Psychic Shatter

When you successfully affect a creature with a mind-affecting power, you may expend martial focus to stagger them for 1 round.

Brain Feast

If you kill a creature with a tentacle lash or a psionic power, you may expend martial focus to gain a +2 insight bonus to attack rolls, AC, and saves for 1 minute.

Neural Eclipse

Once per day, when you manifest a power of 6th level or higher, you may expend martial focus to maximize all dice rolls for that manifestation (damage, PP recovered, duration, etc.).

Transformation lasts for a number of rounds equal to your Hit Dice or until you revert as a free action.

Magichange: Gargoyle Armor (Su)
[Magi-Change]

As a full-round action, transform into light, medium, or heavy armor. The armor grants an enhancement bonus to AC equal to half your Hit Dice (minimum +1, maximum +5), DR 2/—, and +2 saves vs. forced movement. Lasts a number of rounds equal to your Hit Dice or until you revert as a free action.

Brand Class Features (Void Monarch)

Reserved entry: the source supplies this name without a complete rule.

Brand Bounty (Su)

(Level 1) The Void Monarch establishes a soul-brand with a chosen entity (the “brand”). Through this bond, the monarch gains access to **Brand Talents** (see below). The monarch can use any talent the brand possesses, though some require the brand’s active form. Talents that grant spell-like abilities or transformations use the brand’s statistics (or Voidrax’s, if weaponized) for their effects. Unless otherwise stated, activating a brand talent is a standard action.

Weaponized Conduit (Su)

(Voidrax Exclusive) When bonded to **Voidrax**, the monarch may manifest it as a **weapon form** instead of an external companion. While wielding Voidrax, the monarch treats it as their equipped weapon. All **weapon form talents** gained through Voidrax are available while it is manifested this way. Only one brand may be active at a time; if Voidrax is manifested as a weapon, no other brand may be concurrently summoned.

Spiritual Development (Su)

(Level 1) The brand channels its essence into the monarch, granting simultaneous bonuses to **Strength and Dexterity**. Each bonus equals the value shown on the class table’s **Str/Dex Boost** column and is applied to **both** scores (e.g., at 20th level the monarch gains **+8 Strength** and **+8 Dexterity**). This is a **brand bonus**, a unique bonus type that **stacks with all other bonuses**, including enhancement, inherent, and morale bonuses. These bonuses represent the physical perfection manifested through the brand’s essence rather than external magic.

Runic Armament (Su)

While your Rune-Giant Brand is active, the runes across your body shift and realign, forming a distinct **runic chassis**. Each configuration changes how your strength, reach, and movement apply in combat, functioning as a *weapon form* for all brand talents and feats. • **Configuration:** When you prepare your brand (or whenever you would normally re-configure an Armiger weapon), choose the rune pattern that defines your chassis—hammer, gauntlet, spear, bow, etc. These are etched forms, not conjured gear; they reshape your musculature, aura, and grip. • **Properties:** You may inscribe a number of *runic properties* equal to your Intelligence modifier. These operate like weapon enhancements but are integral to your body: Crushing (+1d6 bludgeoning), Burning (+1d6 fire), Guarding (+1 AC), Resonant (+2 CMB), etc. • **Scaling:** Your runic chassis counts as a magic weapon with an enhancement bonus equal to ¼ your Hit Dice (minimum +1). • **Reconfiguration:** Re-aligning the runes to another chassis is a swift action while the brand is active. The old pattern fades as the new one lights up. • **Integration:** Any brand talent or Rune Set ability that references your *weapon form* applies to your current runic chassis. Visually, the runes glow, shift, and reposition—fists turning to gauntlets of light, forearms tracing hammer-head geometry, or shoulders projecting spear runes—but no separate weapon ever leaves your body.

Rune-Giant Brand

Reserved entry: the source supplies this name without a complete rule.

Omniglot (Ex):

The Rune-Giant’s intellect bridges all languages. She can understand and speak any tongue and read any written text or rune.

Runic Skin (Ex):

Her flesh is covered in glowing runes that turn aside harm. She gains a +1 natural-armor bonus and resistance 2 to one energy type (acid, cold, electricity, fire, or sonic). At 5 Hit Dice and every 5 HD thereafter these bonuses increase by +1 AC and +2 resistance. Once per round when she takes damage, she may reduce it by an amount equal to her Intelligence modifier.

Eyecandy (Ex):

The Rune-Giant’s monumental presence radiates power and majesty. She gains a +2 inherent bonus to Charisma, which increases to +4 at 10th level.

Initiate Magic (Sp):

The Rune-Giant gains access to the spell-like abilities of a standard Rune-Giant. She may use *detect good*, *charm person*, and *suggestion* as spell-like abilities a number of times per day equal to 3 + her Charisma modifier.

Sisterhood of the Master (Ex):

The Rune-Giant Companion can share her master with other female companions, binding herself to the same master bond. While in the presence of another female bonded companion, the Rune-Giant gains a +2 morale bonus on all saving throws and increases her effective Hit Dice by 2 for the purposes of ability scaling.

Companion of the Lonely (Ex):

The Rune-Giant gains the Vigilante's social talent **Loyal Aid**. She gains a +4 bonus on Diplomacy checks made to gather information and may deliver messages and warnings with uncanny speed.

Cultivated Power (Ex):

The Rune-Giant may shift her ability-score increases gained through level progression. Instead of boosting Strength or Dexterity, she may choose to increase Wisdom or Charisma.

Demon of Multiple Worlds (Ex):

The Rune-Giant gains access to magical effects from other settings. She may select up to three supernatural or spell-like abilities thematically appropriate to the campaign world and use each once per day.

Runic Bond (Su)

(*Mirrors the Armiger's Customized Bond feature*) At 2nd level, the Rune-Giant's body becomes her armory. She gains the **Customized Bond** feature of the Armiger, except her bonded forms manifest as glowing tattoos and energy lines across her skin. Bonuses and properties normally granted to weapons apply to her natural attacks, touch effects, or Brand-delivered strikes. She uses the same action economy (swift to swap, full round to re-align) and progression as the Armiger. Visually, her runes flare into hammer, spear, or bow patterns that never leave her body.

Rune of Idiosyncrasy (Ex)

"Each sigil is a memory of language and meaning." Grants a **+2 insight bonus** on all Knowledge and Linguistics checks; these skills are always treated as trained. This bonus increases by **+1 for every 5 Hit Dice** (maximum +6). When combined with *Omniglot*, she gains a +4 circumstance bonus when deciphering magical runes, wards, or relics.

Soul-Etching (Su)

When she integrates a soul (via Soul Sphere or equivalent effect), she may etch its essence into a rune upon her skin. She can maintain a number of etched souls equal to her **Intelligence modifier**. Each etched soul grants a +1 enhancement bonus to a single ability score of her choice (max +3 per ability type). Replacing a soul takes a full-round action and erases the previous rune. This ability ties her directly into the Soul Sphere framework and replaces external equipment bonuses with internalized runic power.

Living Glyph (Ex)

Her body itself becomes a runic artifact. As a swift action, she may project one of her etched runes outward, creating a 10-foot aura that grants allies a +1 insight bonus to AC and saving throws for 1 round per HD. While the aura is active, she glows with radiant sigils and may channel any spell-like or supernatural Brand talent through it as though it were centered on her aura's edge. Once she uses this ability, it cannot be reactivated until the aura's duration ends.

Rune of Memory (Su)

Every rune is a story. The Rune-Giant can perfectly recall any event she witnessed. Gain a +4 insight bonus on all Knowledge (history) and Sense Motive checks. Once per day, she can project a memory as an illusion (*major image*, CL = HD).

Runic Devotion (Ex)

Her faith in her own markings grants supernatural endurance. When she spends a spell point or soul, she gains temporary hit points equal to her Int modifier × 2 for 1 minute. At 10 HD this refreshes automatically once per combat.

Rune of Resonance (Su)

Her body hums with harmonic script. Allies within 30 ft gain +1 to attack rolls and saving throws while she is concentrating on a sphere effect or brand ability. At 15 HD, this bonus increases to +2 and also grants +10 ft movement.

Runic Guardian (Ex)

She can project a semi-solid rune-construct to intercept attacks. As an immediate action, reduce damage dealt to an adjacent ally by $\frac{1}{2}$ her HD + Int mod. Uses per day = 3 + Int mod.

Rune of Reflection (Su)

Once per round when targeted by a spell, she may make an opposed caster-level check (DC = 11 + spell's CL). On success, negate the spell and reflect it to its origin as if by *spell turning* (one reflection). Requires 10 HD.

Seal of Giants (Ex)

Her runes embody the might of ancient titans. Gain +4 competence bonus to Strength checks and CMB; treated as one size category larger for combat maneuvers and weapon reach when using Runic Bond.

Rune of Genesis (Su)

By spending 3 souls or 5 spell points, she may inscribe a new rune into existence. This functions as a *permanent magical item effect* (as *permanency*) for one sphere ability of 3rd level or lower. She may maintain one Genesis rune at a time; creating another erases the previous one.

Eternal Sigil (Ex)

Her body becomes an indestructible runic vessel. She is immune to ability drain, aging penalties, and petrification. If reduced to 0 HP, her runes detonate in a harmless burst of light, restoring her to 1 HP after 1 round. Once per day, she may instead channel this effect to fully revive her master at $\frac{1}{4}$ HP.

CHAPTER 30

Design Notes

Scope and revisions

This draft includes the full uploaded Night monarch.pdf catalogue. Night Monarch is a standalone Soma Cruz-inspired class; Warlock is its chassis donor. Export timestamps, duplicated numbering and conversational formatting prompts have been removed. The author instructed removal of the undefined blood pool; Rejuvenation, Sanguine Invigoration and Conversion were removed, and Gargoyle Perfect Defense lost only its optional blood-point cooldown bypass.

Brand forms

The author retained the mixed source rules: some powers operate through the Monarch, some brands transform into equipment, and others act as companions. The source does not establish a uniform action, resource or manifestation contract. This edition preserves those distinctions instead of applying Guardian rules by analogy.

Chassis integration

Night Monarch uses its own class table. Infernal Grace, Uncanny Dodge, Improved Uncanny Dodge and Archfiend Form use the corresponding Warlock rules with the class name and Night Monarch acquisition level substituted. Warlock-specific Infernal Blades, Dark Claim, Dark Wards and Bleak Prophecy have not been added merely because Warlock donated the chassis.

Missing base features

Master of Night, Dark Lore and Armament appear in the table or talent references without complete base-feature text. The source does not state a Hit Die. These require an authorial decision before the class can be considered complete. The unnamed 10th-level Feature placeholder has been removed.

Progression conflicts

The table and Blended Training prose differ on talent acquisition. Magatama customization begins at 2nd level, but copied text also mentions 1st level. The two bonus casting talents are separate from the table's Blended Training count. No progression has been silently changed.

External systems and unfinished options

Many named talent entries lack rule text; they are labelled Reserved. External imports such as Mana amps, veils, psionics, runes and disciplines require their owning sources. Rune-Giant text mentions Void Monarch and Voidrax; this edition preserves those references as supplied rather than assuming they apply to every brand. The attachment supplies no Echo progression for Taoist Bound Demon.
